High School Concert Band- Zajac

- **METRONOME**...all musicians should have a metronome for practice and will assessed against a metronome during the year. Therefore practicing with one is essential! Metronomes cost as little as \$12 (Qwik Time #QT5 is a perfect choice) from a local music store and go up in price for more features. A basic digital metronome is fine.
- **Percussionists:** minimum = (1 pair) drum sticks (5A or 5B nylon tip or wood tip is acceptable), practice pad with stand. Consider a small stick bag and drum key.

Mallet/keyboard instruction is part of percussion and will be addressed in school along with developing needs for additional mallets or accessories.

- **Woodwind** players should purchase a supply of reeds as the school will be limited in supplying reeds any longer. Cleaning supplies include at minimum a cleaning swab and cork grease for connecting joints. A cleaning kit might also be a good purchase for additional needs. Consider a tuner for developing intonation.
- **Brass** players should consider a cleaning kit that contains tuning slide grease, oil for valves and a cleaning brush for your mouthpiece. Consider a tuner for developing intonation.
